

Rio Grande

A vibrant and interesting community is unfolding. . . at Rio Grande in Roxas City!

To those who appreciate only the BEST and accept no less, go for — RIO GRANDE. Now is your opportunity to own a lot closest to nature and the city’s heart …where you can build the home you have always dreamed of.

Just a minute or two away from workplaces, schools, hospitals, worship places, government centers, shopping malls and, no less than, the beach … your future home shall be highly accessible on foot or using any vehicle to the city center.

Rio Grande was built and developed with traditional warmth and sensibility in mind - depicted by its homey entrance gate, pavilion, landscaped park and playground, serene gardens and lots of green space that blend with the environment … naturally.

Trees dot the 500-meter promenade along Kadimahan River — beckoning you for a leisurely walk at the break of dawn or for a jog at dusk. Exercise and watch the sun rise or set at nearby Baybay beach . . . a respite from worldly pressures indeed!

Simple joys — that most people only dream about. . . Simple pleasures experienced . . . only at Rio Grande! PROJECT NAME Rio Grande
